

Gas Processing Plant To Be Constructed West Of Carstairs

Plans for construction of a \$3,750,000 gas processing plant, the Carstairs area were unveiled before a meeting of the Mountain View Municipality in Didsbury on Monday afternoon.

The plant is being built and will be operated by Home Oil Company Limited on behalf of the Carstairs gas producers. It is to be located five miles west and two miles south of Carstairs. Construction will start on August 15th and a plant is scheduled for completion on March 1st, 1960.

It will have a capacity to process 75 million cubic feet of raw gas per day which will be drawn from the Carstairs field and sold to Trans Canada Pipe Lines. The plant will remove the acid gas content by an amine treatment and in addition to the pipeline gas will market approximately 2,200 barrels of condensate per day.

Arrangements for building the plant have been made with Fluor Corporation of Canada Ltd. It is expected that most of the equipment used in the new plant

will be of Canadian manufacture while the labor force of 200 during construction will be entirely Canadian.

When in operation, the processing plant will be highly instrumental and will employ about 30 people.

The main ownership of the plant will be divided approximately 50% to the Home Oil group which discovered the field, 25% to Canadian Superior Oil of California, 10% to Tennessee Gas Transmission Company, 8% to Texaco Canada Ltd.

J. M. Drum, Home Oil manager of special projects, and H. Geddes who will be in charge of the operation of the plant, appeared before the Mountain View council and explained the project.

Mr. Drum said that Home Oil has purchased lots in Carstairs on which it plans to build several houses for the gas plant employees who will be stationed there. These men are currently going through a special training course to familiarize them with gas plant operation.

MOUNTAIN VIEW

(From Our Own Correspondent)

Mr. and Mrs. Gordon Gebers were recent visitors with the latter's parents Mr. and Mrs. Joe McMan at Wainwright.

Mr. and Mrs. Myron Gebers of Calgary were Friday visitors with Mr. and Mrs. Arthur Gebers.

Mr. and Mrs. Lawrence Hunter and Donna were Friday supper guests of Mr. and Mrs. Richard Newton of Penhold. They also attended a wedding dance for Mr. and Mrs. Charles Johnson (Alene Hunter). The latter is a niece of Mr. Hunter.

Mr. and Mrs. James Worral and Mr. and Mrs. Lawrence Hunter and family were Sunday visitors with Mr. and Mrs. Murdoch Campbell of Ekton.

Mr. and Mrs. Arthur Gebers were Sunday evening visitors with Mr. and Mrs. James Worral.

Mr. and Mrs. W. H. Lechelt and children were Sunday evening visitors with Mr. and Mrs. Lawrence Hunter and family.

Mr. and Mrs. Leonard Cooper and Mr. and Mrs. Bill Wise and Garry of Red Deer were Sunday guests of Mr. and Mrs. Charles Snyder and family.

Mr. and Mrs. Frank Shaw and family of Carstairs were Sunday visitors with Mr. and Mrs. Doug Gooding and family.

Mr. and Mrs. Tim Loader and family of Calgary were Sunday visitors with Frank Gooding. Mr. and Mrs. Doug Gooding and family.

Farm Women To Hold Convention

Because a farm woman with visions visited the Olds School of Agriculture and Home Economics soon after the dormitory was built a seed was sown which bore fruit in 1930 and every year since.

Mrs. S. V. Townsend, a young farm woman from Erskine came to the school while a group of farm young people were enjoying the advantages of a short course. Knowing that vacations were rare for farm women, she conceived the idea of a rest week for them at the school. Through her initiative the idea became a reality 29 years ago.

The 30th annual farm women's week will be held at the O.S.A. from July 20th to 23rd this year. No longer a rest week the program will be a busy one, featuring top notch speakers and demonstrations in the many fields of interest and concern to modern farm women.

Group discussions, sewing classes, an amateur program and other activities will afford opportunities for everyone to take part.

Women who want more information should send their names and addresses to the principal, School of Agriculture, Olds. A copy of the program will be mailed as soon as arrangements have been completed.

STORES TO CLOSE AT 6 P.M. SATURDAY

Local merchants have decided, in agreement with their counterparts in neighbouring towns, "to lock their doors" at 6 p.m., Saturday evenings during the summer months of July and August.

Subscription Note:

A red line under your name means your subscription is overdue.

A blue line means your subscription is coming due next month.

Please pay out of town subscriptions by money order.

Congregation Gather To Welcome Minister's Return

On Monday, June 15th about a hundred friends gathered in the church basement to welcome back Rev. A. E. Stokel and his family to another year of service.

In the program it was brought out how much they are appreciated and how glad the congregation was to have their continued love and friendship. A shower was tendered as an expression of their regards for them in their always faithful labor of love in the Master's service.

During the evening it was a happy privilege to honor Mr. and Mrs. E. Cogwell, the occasion being their 40th Wedding Anniversary. A gift was presented to them on behalf of those present.

CANADIAN BABIES BUILT-TO-ORDER IN FUTURE . . . ?

You'll be able to order your baby tailor-made to your own specifications shortly, Canadian geneticists promise.

For instance: "You'll be able to order a left-handed, red-headed son, with curly hair; high I. Q. and immunity to many diseases," writes John Dalmryple in the June issue of Liberty.

"Romantic lovers will present their gene charts for approving click of an electronic computer, instead of seeking Papa's consent. Their little bundle from heaven may well be conceived on a microscope slide," says Dalmryple.

Genetics studies how parents pass on their characteristic traits to their children. Professor Herman J. Muller, Montreal Nobel Prize winning geneticist, warns that this function cannot be left indefinitely to the whims of parents. "Parents will soon draw from a 'bank' of reproductive cells instead of passing along mediocre," traits," he said. Provided by "world's acknowledged geniuses," these cells

NO PAPER SCHEDULED FOR NEXT WEEK!

Following the trail of former years and forms we will stick with the habit and not publish during the second week of July. However, our office will remain open the entire week for your convenience.

Our next issue will be published on Thursday, July 16th. See you then!

South West Didsbury

(From Our Own Correspondent)

Mr. and Mrs. Ed Clayton accompanied Mr. and Mrs. E. Sharp to Medicine Hat and other parts of southern Alberta over the weekend.

Mr. and Mrs. Alec Befus and family of Springfield Ore. spent several days last week visiting relatives here.

Mr. and Mrs. Dave Patton are the proud parents of a baby boy. Congratulations!

Mr. and Mrs. Tom Edwards and family, Mr. and Mrs. Jack Edwards and son and Mr. and Mrs. Doug Bales spent Sunday at Pine Lake. Visitors at the Carl Meyer home on Sunday were Mr. and Mrs. J. Oilliland of Bowden and Mrs. Dave Boden of Lacombe.

Mrs. G. Meyer Sr., accompanied by her daughter Mrs. J. O'Brien of Edmonton, left on Thursday to visit friends and relatives in Ontario.

Mrs. B. Brower and Glen of Calgary have been spending several days with Ed Dippel.

Local Couple Celebrate Anniversary

Mr. and Mrs. P. R. Dawkins of Calgary entertained at a family dinner to celebrate the occasion of the Golden Wedding Anniversary of Mr. and Mrs. A. B. Kendrick.

The table was decorated with a tiered wedding cake, beautifully decorated with golden horse shoes and flanked with golden tapers. Places were set for fourteen. A lovely bouquet of yellow roses and bronze mums tried with gold ribbon graced the living room. A corsage of yellow roses and a rose boutonniere were presented to the honored couple. Telegrams of congratulations were read from the East and West coasts from relatives unable to be present.

Mr. and Mrs. Kendrick's son, Murray of Regina was in Calgary for the occasion. Among the family gifts received was an oil painting of the box river done by their daughter Bea.

Didsbury and district would like to take this opportunity to wish Mr. and Mrs. Kendrick many more years of happiness together.

WESTCOTT W.A. HOLD REGULAR MEETING

The Westcott W.A. held its regular monthly meeting in the church basement with 22 members and two visitors present.

Mrs. Jack Robertson assisted by Mrs. C. Campbell conducted the devotional period.

During the business meeting it was decided that the W.A. would cater to the banquet for the West Didsbury Beef Club to be held in July. Also agreed upon was having a summer school in August, followed by a picnic.

The missionary topic was given by Mrs. C. Fischer.

The September meeting will be held at the church, with Mrs. G. Robertson as hostess.

would be stored for generations, deep frozen at -80 degrees.

Dr. F. Clarke Fraser, geneticist at McGill University, reports that marriages between first cousins increase the risk of defective genes showing up. He told Dalmryple, "Every family has some defective genes. But it's the individual case that counts, not average figures."

The factor which causes multiple births are being pinned down. The Dionne quintuplets are known to have come from a single egg. Their doctor, Allen Dafeo, believed there were originally six girls, but one of the embryos died very early.

RURAL FIRE GROUP PLAN JULY 4th MEETING

A directors' meeting of the Didsbury rural fire protection association was held on Friday evening, June 26th.

The sum of \$2540 has already been collected to purchase fire equipment to protect the rural area around Didsbury. There is still some canvassing to be done, but it is expected to be completed within the next week or two.

A general meeting of all concerned will be held on Saturday, July 4th at 8:30 p.m. in the Lions Hall. Arrangements will be completed as to purchasing equipment and electing officers.

DIDSBURY SCOUTS' BUILDING FUND

The Didsbury branch of the Canadian Legion are sponsoring the building of a log hut for the use of local Boy Scout groups, including Guides, Cubs and Brownies. Funds are urgently needed as work on the project will commence in the near future.

Donations of cash or labour will be greatly appreciated. Money should be given to Mr. John Tisworth or Dr. Ian Miller. Cheques should be made payable to the "Didsbury Scouts' Building Fund."

BIRTHS

AT THE DIDSBURY MUNICIPAL HOSPITAL

To Mr. and Mrs. Roderick Patten of Didsbury, on June 25th a daughter.

To Mr. and Mrs. Dave Patton of Didsbury, on June 26th, a son.

LOCAL W.C.T.U. HOLD PICNIC MEETING

The local W.C.T.U. members and visitors held their annual picnic at the youth centre on the Bible College grounds, Thursday afternoon, June 25th. Miss Beverly Neufeld and Miss Judy Snyder led the pre-school children in games while their mothers attended a short discussion period on juvenile delinquency. Mrs. Ira Shaffer gave a short talk on the history and work of the W.C.T.U.

Mrs. Lloyd Stauffer, superintendent of the Little White Ribboners, was in charge of the picnic. She was assisted by Mrs. W. Annett, Miss Carol Eby and Miss Lillian Stauffer.

Golf Notes . . .

The weather man favoured the lady golfers on Thursday, with very successful competitions being completed for both Olds and Didsbury. Following are the winners: Olds (Low Score) a tie Mrs. Zella Stross and Mrs. Ruth Martin; Putting, Mrs. Marjorie Miller, Didsbury; Low Score, Mrs. Beeta Gilline; Putting, Mrs. Marge Allen.

The official opening of the local golf course, Sunday, saw many couples out on the links during the day. A buffet lunch was served at the clubhouse.

Winners of the pre-drawn two-ball foursome competition were Betty McMullen and John Polkmann. Late entry event winners were Lila Tuggle and Sam Moore.

Hail Suppression Report . . .

During the week ending Saturday, June 27th, some very violent hail conditions developed in and around the hail suppression project.

Monday, June 22nd, hail occurred in the foothills to the west of Crossfield. Hail was reported several inches deep in some sections. The following day, a hailstorm developed in the Bottrel district and moved in a southeasterly direction to within a few miles of the suppression area.

Again, on Wednesday, June 24th, a maximum threat developed. Severe hail was reported in a widespread area from DeWinton in the south to west of Innisfail in the north. Severe hail occurred in an area south and east of Crossfield and an area south and east of Three Hills. This was a day of intense and widespread thunderstorm activity. Hail was also reported near Acme as well as many areas outside the project. In situations of this kind, each thunderstorm was completing for the available silver iodide crystals released

and as a result some storms are likely to receive less than the desired numbers. Both aircraft were used throughout the period of activity, but with numerous cells developing simultaneously, it was physically impossible, in this case to attack each cell at the proper time.

Situations of this kind are the exception rather than the rule and is one of the reasons that elimination of hail is not possible at this stage in the development of hail suppression.

June 25th produced a moderate hail threat as thunderstorms developed in the southern part of the project, but no hail was reported.

Ground generators have operated almost 1900 hours to date and the aircraft have flown on 5 of the first 7 days. This compares with only 121 hours of ground operation last year in the same period.

The general rains of late Thursday and Friday produced 2 inches of moisture at the Didsbury office while almost 3 inches fell at the Calgary office.

GOLFER MAKES THE DREAM SHOT

Former local boy "Bill Fulkert" made a remarkable golf shot at the Edmonton "Riverside Course" on Friday, June 19th. Bill made the "hole in one shot" on the 180 yard 14th hole with a No. 5 iron.

Besides a trophy made with the ball he used by the Company which manufactures the ball he will receive several certificates and prizes.

He also has an invitation to play in the famous tournament at New York, August 15th.

This shot was particularly a good one because Bill (a left hander) was using a rented set of clubs. His complete set, including his cart and all, were stolen from his car about two weeks ago.

CREMONA NEWS

(From Our Own Correspondent)

The Ladies Sewing Circle held a surprise party meeting for Mrs. Justine Simpson at their new home.

The United Church will hold no church services or Sunday school during the month of July. Services will be held regularly at Graham and Water Valley schools by the student minister; services at the United Missionary Church will carry on at the usual time.

The annual strawberry festival, sponsored by the local W.A. was held in spite of the rain on Friday, July 2nd.

The rains washed out the Penner bridge west of Cremona and partly loosened the bridge across the museum. Water was flowing across the road by the steel bridge.

Mr. Lorne Knox entered the University hospital last Thursday.

A shower for Mrs. Peterson (Nee Doreen McArthur) was held at the home of Mrs. Knury Walker last Thursday afternoon. Over thirty ladies gathered to honor the bride.

4-H ACHIEVEMENT DAY SET FOR July 3rd

The 4-H Dairy Clubs, under the direction of District Agriculture, Howard Pridley, plan a joint Field Day on Friday, July 3rd, in the Carstairs arena.

Judging will commence at 10 a.m., with barbecued sandwiches being served from 12 to 2.

Approximately 60 club members from the area of Olds to Crossfield will show their calves in this competition.

A cordial invitation is extended to all those in our fair town, who donated prizes so willingly for this event.

The 4-H members have worked hard fitting their animals for this show and do not take lightly competition for these prizes.

Veteran Teacher Retires . . .

A farewell tribute to a veteran teacher, Mrs. D. D. Booker, who is retiring from the profession, was the main feature of the June meeting of the teachers of the Didsbury sublocal of the A.T.A. Mrs. Booker was presented with a bouquet of roses and an electric blanket from the sublocal, and a lawn chair from the teachers of the primary school.

Her career began as a teacher of reading in England, whence she came in 1910 to the Didsbury school prior to her marriage. She re-entered the teaching service in 1942 during the war, going first to Vale View, then Gore, before coming to the Didsbury school, where, for the past eight years, she has been in charge of a grade one

Blood Donor Clinic Here Friday

Please don't forget the BLOOD DONOR CLINIC in the High School Auditorium on July 3rd, from 1:30 to 4 p.m. Remember your donation of blood could save a life!

GIVE BLOOD? WHO ME?

There are several standard objections voiced by some people when asked to donate blood. Here they are and suggested answers.

PROSPECT: Someone told me it is weakening to give blood.

ANSWER: Nonsense! You make that pint back in about 48 hours. It's more weakening to sit around and think up excuses for not donating.

PROSPECT: I'm saving my blood for when I need it.

ANSWER: You can't save your blood. The blood you have today will be gone in a few days and a new supply manufactured.

PROSPECT: I saw blood during the war while in service, and it was no picnic.

ANSWER: This is 1959. The trained Red Cross nurses are skillful, gentle, and quick. There use fine modern sharp needles you can hardly feel.

PROSPECT: "I will probably be out of town on that day, and I will probably have a cold too."

ANSWER: Make it a rule never to travel or get a cold on a bloodmobile donor day.

ALBERTA'S Rural Electrification goes forward

**FULL POWER
AHEAD**

Rural power lines
now carry better farming
— and better living
— to more than 72 per cent
of all Alberta farms.

Where power goes . . . farm profit grows.

Power on the farm boosts its market value by more
than the cost of the service installation. For power
is the "wired hand" that sets a new high in farm
efficiency. And power in the farm home means an
unequalled standard of 20th century living!

Little wonder that rural electrification is spreading
at increasing speed. At the start of 1959 no less than
72 per cent of Alberta's farms were being served with
low cost power through local REAs.

To keep the power-flow coming, Calgary Power Ltd.
maintains four and a half thousand miles of main
transmission lines, plus three thousand miles of dis-
tribution lines to supply farmer-owned REA services.
Calgary Power's overall facilities represent a multi-
million dollar investment.

We're going forward . . . FULL POWER AHEAD!

CALGARY POWER LTD.
HELPING TO BUILD A BETTER ALBERTA

The power transmission lines of Calgary Power Ltd.
were serving almost 33,000 farms at January 1st,
1959 — an increase of 29,000 in 10 years.

Ramblin'
and
Roamin'

You Lucky People . . .

We're leavin' . . . on holidays that is! Our second in command, Miller McCoy, will take over for a week or so while we bask in the sun on the west coast. After checking things with the wife and 'datter we decided against attending the nudist camp scheduled for Midnapore about the same time. 'Twas decided it would be more proper to wear shirts and shorts; we don't care to sun-bathe and play outdoor sports without any clothes on. May we creep one wee note in here: "while the boss is away the office will be open as usual but there will be no issue of The Pioneer on July 9th. We're just following the pattern that was laid for us by previous publishers of this paper."

An Ad In The Paper . . .

Under the foregoing heading, an Oregon economist says: "One of the most valuable tools that has been used for combating the current recession is the advertising power at home and in 'our' fair town and neighboring newspapers. At the end of every production line stands the consumer, and national prosperity is but the sum total of local prosperity. In thousands of communities all across the country, because of editorial comment encouraging people to buy in their neighborhood or in their own home town, and as a result of newspaper advertising programs undertaken by local merchants, local retail sales, the pulse-beat of national prosperity, have been much encouraged. An ad in the local paper has always been the mark of a successful business and the experience of recent months has only served to prove that point."

Another Famous Quote . . .

"We all want our friends to tell us of our bad qualities; it is only the particular ass that does so that we can't tolerate."

Guest Editorial

THE ELECTION RESULTS

Our crystal ball must have been a bit dusty, but we don't care whose crystal ball you were gazing into, you never anticipated the election results as they turned out to be. Premier E. C. Manning and his party was accorded the greatest vote of confidence by the Alberta people ever recorded in Canada by a government that had been in power for a term of 24-years. True, Prince Edward Island once elected an all-Liberal provincial government, but the party had not been in power for such a long time.

Anyway the Social Credit party holds 62 out of the 65 seats in the Alberta Legislature, since Mr. Ansley of Leduc was formally approved by the Premier prior to the election date. One must tender congratulations to Mr. Manning for it was largely on the strength of his own personality and popularity that the party was swept back into power. Whether you like it or not the dividend cheques played a mighty important role in influencing the electorate.

Of course Alberta is lucky. We have the big oil revenues, but they have been well husbanded to the benefit of the Alberta people. All Canada looks upon Alberta with envy, while at the same time they think the Alberta citizens are a bit "toughed" because they don't vote straight Liberal or Conservative. But thus we go our merry way.

Really, we thought the Conservatives would make a showing in this election, but we never for one moment conceded the defeat of the Social Credit party. Before the vote, we were told by an old-time Liberal in Edmonton that Grant MacEwan was leading the Alberta Liberals down the pathways of oblivion, indicating internal party friction. Of all the persons whose opinions were heard before the vote was taken, that of Cliff Spiers came the nearest to that of what actually happened, and this was within three days after the date of the election was first announced by the Premier.

He had been in Calgary and heard the opinions there . . . that the Manning government would be re-

Nudists Plan Annual Meet

(The following item was borrowed from the pages of the Calgary Herald):

Nudists of the San Helios Club of Calgary attended the 10th annual convention of the Canadian Sunbathing Association near Vancouver last weekend.

Local members have a secluded campsite near Midnapore where it is possible to sunbathe and play outdoor sports without any clothes on.

The San Helios club has about 35 members and the club is affiliated with 15 others in Canada and nearly 200 in the United States.

Membership consists largely of married couples and families, but single persons of good character are accepted.

The club has been in operation for three years and about 10 of its members are expected to attend the convention.

CHECK THE LABEL . . .

"Now be sure," the farmer's wife cautioned the druggist, "to label them bottles plain; which one is for the horse, and which one is for my husband. I don't want nothing to happen to that horse before spring plowing!"

elects practically annihilate all opposition. Well, now the boys are back in office they have a terrific responsibility toward the people of Alberta. Premier Manning has a lot of new man-power to call on for administrative responsibility, and it will be a problem to utilize them without creating discord in the ranks of the old faithful. The Premier will have to exercise restraint to keep avaricious of the troughs of plenty and hold the legislature down to a humble level, in touch with all the people of the province.

The Social Credit Five Year Plan should go ahead without restraint, and that is what the Alberta people will be expecting.

In the West...
we're mighty
proud of
this Brand.

'Way back in 1892 when we produced our first bottle of Calgary, we marked it with a horseshoe and buffalo . . . and it's become a famous brand here in the West. Yes, the Calgary horseshoe and buffalo has come to mean the finest in refreshment . . . unmatched beverages made with naturally purified, naturally refreshing pure rocky mountain spring water. You need look no farther than this well-known Western brand to discover genuine deep-down refreshment in beverages that are delightfully good-tasting and thoroughly thirst-satisfying. Today . . . why don't you order the best known brand? Call for Call!

By KATHLEEN CARNEY

FARM WOMEN'S WEEK

The week of July 20th is Farm Women's Week at the school of Agriculture at Olds. For those who have attended one of these weeks, I do not have to explain what a grand time you can have there. Just imagine no gardening, no dishwashing, just the whole day to eat, sleep and be merry. And of course to attend the various lectures, demonstrations, and tours put on for your enjoyment and benefit.

Accommodation is provided in the school dormitories at a charge of \$4.00 per day for board and room (banquet included). The charge for room is only \$1.50 and for meals at a rate of 50c for breakfast, \$1.00 for dinner and \$1.00 for supper. No charge is made for children under six years of age — a charge of \$1.50 per day is made for children 6 to 12 years. No other fees are charged.

The program is planned to include lectures and demonstrations in practical Home Economics topics as well as agricultural topics of interest to farm women. Provision is also made for recreation and relaxation from the routine of home duties on the farm.

If you are within daily driving distance you are welcome to attend for one or more days. Nearby organizations may wish to arrange for the whole group to attend for a day. Please advise the school so that arrangements for meals may be made.

A copy of the detailed program and an application form are available from this office.

JUST CHASING IT !!!

The train came to a sudden grinding stop. "What has happened Conductor?" asked a nervous old lady.

"Nothing much, we just ran over a cow."

"Was it on the track?"

"No," replied the disgruntled conductor. "We chased it into the barn."

NOTES FROM

The
District
Agriculturist
**HOWARD
FULCHER**

Livestock men should watch their animals carefully for any sign of mineral, protein or vitamin deficiencies. Spotting the deficiency symptoms early and taking action to correct them will pay dividends. With proper supplementation you will get better feed utilization, faster growing young, healthier animals and better live birth rates.

In minerals, salt is one common mineral often not fed at sufficiently high levels. Insufficient salt results in lowered milk production and poorer rates of gain and low feed efficiency. Salt also can be used for a cure for iodine and cobalt. The iodine will help prevent hairless pigs and goiter trouble in other animals.

Inadequate calcium and phosphorus has damaging effects on bone structure. In addition it may be a predisposing factor to a number of diseases such as rickets in young and milk fever in cattle.

Mineral deficient animals often do poorly, are unhealthy and may develop depraved appetites such as chewing sticks or bones, eating dirt or other foreign matter. Pregnant animals show up these above factors quickly and others produce weak or dead offspring if deficiency is severe.

The best and only way to avoid mineral deficiencies is to supply the necessary minerals to the animals either with the feed or free choice. If trace-mineralized salt, calcium and phosphorus are supplied at the level required to maintain an animal's health, it is not necessary to purchase expensive mineral mixtures which contain tonics, etc. To do this use iodized or cobaltized salt, limestone and bonemeal, these fed at the required rates to meet the livestock needs.

BIRTHS

AT THE DIDSBURY MUNICIPAL HOSPITAL

To Mr. and Mrs. H. Penner of Didsbury, on June 19th, a son.

To Mr. and Mrs. J. Yellowlee of Crossfield, on June 20 a daughter.

To Mr. and Mrs. Wm. Hoser of Crossfield, on June 23rd, a son.

To Mr. and Mrs. L. Brown of Crossfield, on June 23, a daughter.

CREMONA NEWS

(From Our Own Correspondent)

(Intended For Last Week)

Mr. and Mrs. J. Rattray and Grant were Sunday visitors with Mr. and Mrs. South of Olds.

The first Junior League ball games were played last Friday evening with Cremona chalking up two losses, one with Graham and one with Mount Hope.

A Masonic funeral was held for Mrs. Charlie Reid last Friday afternoon in Carstairs. Mrs. Reid was a long time resident of Cremona.

Mrs. B. B. Reid returned home from the hospital last week and is gradually improving.

The grade eight students chaperoned by Miss Maynes and Mr. MacKay had a camp out and a geological study last Tuesday evening.

There will be no meetings of the W.A. during the months of July and August. The next meeting will be held on September 4th.

Mrs. Marion Reid gave a conference report at the United church on Sunday, June 21st. Progress is reported and much more room for progress remains. A temperance speaker visiting here on Sunday stated that there are 10,000 alcoholics in Alberta and 30,000 problem drinkers.

Mr. Lorne Knox returned home from the hospital last Sunday to spend a couple of days at home before entering the University hospital for further diagnostic treatment.

Mrs. J. Q. Lane is visiting with Mr. and Mrs. G. Beeher this week.

Dairy Achievement Day Friday, July 3rd.

The 4-H Dairy Clubs Achievement day will be held in the Carstairs arena on Friday July 3rd.

Judging will commence at 10 a.m. The dairy clubs will exhibit 109 dairy calves consisting of yearlings and two year olds of Holstein and Ayrshire breeding. Competing clubs will be from Olds, Bechtou, Spruce Coulee and Carstairs.

Everyone is welcome, with a special invitation to all 4-H members. A bang up bar-b-q, sponsored by the Carstairs Dairy and Beef Clubs, will be part of the days activities.

This promises to be a colorful day, so bring the family and enjoy the day with us. T.V. and radio men will be present.

DISTRICT NEWS**LIGHT YOUR WAY...****... WITH BIBLE STUDY**

It doesn't matter whether you are an employer or an employee, read this anyway.

An office manager once said: "My employees do little work on Mondays and Tuesdays because they are so tired from weekend recreation. On Thursdays and Fridays they accomplish very little because they are planning the weekend fun."

The employee often feels that it would have been much better to stay near home over the weekend and rest. He feels that a weekend of recreation actually became a weekend of "wreckreation" and he is the much worse for it, mentally, spiritually and financially.

Isaiah, mighty Seer of old, would suggest to us all: "But they that wait on the Lord shall renew their strength." Isaiah 40: 31. We all need rest from our labors whatever they may be: mechanic, sales-clerk, manager, book-keeper, clergyman, milkman, and so down the line. Too often we try to find rest by driving at break-neck speed 100 or 200 miles over the weekend. We may have an hour or two of what some call, "fun". All too often, because of the tension under which we travel, we begin to snap at one another, nerves become frayed, and what is worse, we may even endanger lives. Then comes the morning. Well, you know how it feels.

Why not take a rest over the weekend. Refresh yourself with the Word of God as it is proclaimed by your Pastor in your church. Let God talk to you as you maybe take the family for a short drive to behold the glories of God. And as you so rest, think and recall the wonderful love of God in Christ Jesus, your Savior.

And come Monday, you will not be numbered among those suffering from "wreckreation" but "recreation" with God. Happy Week-end!

Help Wanted

To all the ladies, young and old. Please listen, as my tale of woe unfolds.

I am seeking tired of a bachelor life. And want to get myself a wife. I would like to get a real good cook.

And one who has a Marilyn Monroe look. Someone who can run the farm. And milk the cows that's in the barn.

She would have to run the tractor every day. And fill the barn with new mowed hay.

Slop the hogs and feed the chickens. And in the evening, make me up some mittens.

She could wash the dishes every day.

While I went into town to play. And hoe the garden and fix the fence.

Now I hope this all, is making sense.

There would be washing clothes, darning socks.

Sawing firewood into blocks.

Churning butter, and making cheese.

While the clothes are drying in the breeze.

She could fix the door upon the barn.

To keep the dogies nice and warm.

Repair the granary roof that leaks.

I hope I get a girl who is not weak.

I could go on, and on, with this tale of woe.

But I had better quit and shovel some snow.

Or there won't be any water for the dishes.

I could give them to the cat, with all good wishes.

Now in this wide world, if there chance should be.

A nice young lady who would join with me.

In running a farm just for Love.

We could be happy as two turtle doves.

Signed, E. Coombes

SERVICE BOARD NOTES

By —
W. K. SNYDER
Agricultural
Service Board

2-4-D and MCP: During the last few days and during the next few weeks a great many farmers have and will be using either one or both of these potent weed killers. For quite a few it will be the first experience they have had. There will no doubt be questions in their minds concerning the various types such as the esters, amines or sodium salt preparations in both 2-4-D and MCP on the market. A comparison of price will be made along with the weed killing qualities of the various brands of material.

In arriving at a relative comparison of costs you must consider how many ounces of acid per gallon the material contains. Figure out how much per acid ounce it is. The cost runs from 6 to 10 cents per acid ounce. Then you decide how many ounces of acid per acre will be needed to do the job and you have the cost per acre for material. Secondly, keep in mind that you will require at least one or two more ounces of acid per acre where amine formulation is used as against the ester formulation. This holds with either 2-4-D or MCP.

This year I have been asked for advice by more farmers than ever before to give them a prescription that will be strong enough to kill the weeds with out damaging the crop. The materials being used vary according to manufacturers formula from a low 38 ounces per gallon to a high of 128 ounces per gallon. Obviously a letter like this is far too short to give much detail on this vital subject, but remember, that I am at your service when or if you wish to have advice.

HAY CUTTING TIME

Most farmers tend to leave their hay crops too long before harvesting, advises the provincial department of agriculture. The department states that as forage crops progress towards maturity, the quality decreases.

Therefore, haying should be done when the most favorable balance exists between nutritive value and tonnage. Experience has shown that this optimum stage occurs in the case of alfalfa-grass mixtures when the alfalfa starts to bloom.

If a hay crop is predominately grass or all grass, it should be in full bloom, except sweet clover, which is best cut in the bud stage.

PERSONAL LOANS

FOR ANY REASONABLE PURPOSE
AVAILABLE AT ANY BRANCH OF
THE ROYAL BANK

DO YOU NEED MONEY

- ★ to consolidate debts
- ★ to meet insurance premiums
- ★ to pay doctor, dentist or hospital bills
- ★ for educational purposes
- ★ to meet unexpected obligations
- ★ to cover major purchases
- ★ for home improvements?

Personal loans for these and other reasonable purposes are available at any branch of The Royal Bank of Canada to any credit-worthy individual.

Obviously we do not encourage people to assume a debt they will be unable to repay. Such loans can be an embarrassment and a worry to the borrower as well as the bank.

BUT if you have a steady job and are in a position to pay back your loan without undue hardship, by regular monthly instalments, your logical course is to call at your nearest Royal Bank branch. You will find the manager glad to discuss your needs with you and to explain to you the remarkably low rate of interest charged by this bank for personal loans.

CARD OF THANKS

Mr. and Mrs. Irwin Klein wish to
take this opportunity to thank their
neighbours for helping to finish
putting in the crop and for fencing
while Mr. Klein was in the hospi-
tal. 1tc

Special thanks to Dr. Mitchell,
staff and nurses of 3 north of the
General hospital.

Also thanks to the many friends
who sent cards, flowers and gifts
and those who visited me while in
hospital. 1tc
